

Rob McKinney

Web Developer | Digital Marketer | UX Strategist

336.706.1112 | ramckinney86@gmail.com | [Linkedin](#) | [Portfolio](#) | Philadelphia, PA

Professional Summary

Strategic Senior Web Developer with over 15 years of experience architecting high-performance digital experiences for global brands like Viacom, and OnSolve. Expert in bridging the gap between complex engineering and user-centric design, with a proven track record of leading full-scale site migrations, rebranding initiatives, and CI/CD optimizations. Highly proficient in the modern JavaScript ecosystem (React, Next.js, TypeScript) and enterprise CMS platforms (WordPress, Sitefinity). Adept at managing remote/offshore teams and navigating stakeholder requirements at the SVP level.

Technical Skills

- Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, PHP, HTML5, CSS3/SASS, GSAP, jQuery, Bootstrap, ASP.NET.
- CMS & Infrastructure: WordPress (Advanced ACF), Sitefinity, Pantheon, Vercel, WP Engine, AWS, Digital Ocean, MySQL, GitHub.
- Design & Architecture: UX/UI Design, Information Architecture, Solutions Architecture, Wireframing (Sketch, Adobe CC, Figma), Content Strategy.
- Project Leadership: Agency Management, Scoping & Estimates, Requirements Gathering, Remote/Offshore Team Management, Technical Documentation.

Professional Experience

Merge Conflict - *Web Developer (Contract)* | New York, NYC, Remote | March 2025 - Current

Merge Conflict is a web development agency based out of NYC. I joined up to work on contracts as a web developer. The projects ranged from React component development to full stack Wordpress development, to integrating marketing tools such as the Google suite, Meta advertising and other tools.

Accomplishments

- Codebase Recovery: Orchestrated the rescue of a critical Next.js project by restructuring the architecture with TypeScript and React, resolving technical debt and stabilizing deployment.
- Data-Driven Growth: Integrated Google Marketing Suite and PostHog to track granular user behavior, informing design pivots that increased user engagement.
- Marketing Integration: Partnered with demand generation teams to launch high-converting landing pages, aligning technical execution with aggressive brand growth targets.

OnSolve, *Senior Web Developer* | Atlanta, GA / Remote | August 2020 – September 2024

I was brought on to the OnSolve marketing team as a web developer in 2020 to lead a full redesign, rebrand and rebuild of multiple brand websites. I helped to streamline website processes for the marketing operations and content teams with training and user experience improvements on the CMS side. Additionally, committed to and executed a roadmap that included many new features and page speed optimization.

Accomplishments

- Enterprise Consolidation: Led the technical migration of multiple brand properties into a single unified domain, preserving SEO equity and distinct brand identities.
- DevOps Optimization: Engineered a streamlined CI/CD pipeline utilizing Git and Pantheon, significantly reducing deployment lead times and site downtime.
- Performance Engineering: Developed a custom, high-speed content library using PHP, ACF, and JavaScript, resulting in measurable improvements in Core Web Vitals and page speed.
- Cross-Functional Leadership: Established collaborative workflows between design and marketing operations, providing training and technical documentation to empower non-technical content editors

Rob McKinney

Web Developer | Digital Marketer | UX Strategist

Viacom - Catalyst, Creative Strategy - Senior Developer | New York, NY | May 2016 - January 2020

At Viacom, I worked within the Catalyst department which served as an internal creative agency for the channel brands and various departments underneath the Viacom umbrella. While there, I scoped, project managed, and executed projects from designing and building new websites to leading third party agencies to develop apps for internal use.

Accomplishments

- Internal Agency Lead: Managed end-to-end web strategy for internal channel brands, overseeing projects from initial wireframe to international launch.
- Large-Scale PM: Directed an external agency in the 8-month development of a social media application for 10,000+ global employees.
- Executive Presentation: Created and presented technical roadmaps and interactive digital experiences to SVP-level stakeholders.
- Mentorship: Spearheaded the onboarding of new developers and provided technical leadership for freelance teams and interns.

Aptify, Technical Analyst | Chicago, IL | November 2012 - May 2016

As a Technical Analyst with Aptify, I worked with the consultant team in a client facing role both before and after their initial implementation of the Aptify SaaS offering. I helped to introduce an emphasis on user interface and front end design on the web app portion of the software. I also worked with the marketing team to help maintain and keep the brand's online presence relevant.

Accomplishments

- SaaS Modernization: Transitioned legacy SaaS web controls to be fully responsive and HTML5 compliant.
- Full-Stack Contribution: Developed custom controls using ASP.NET (VB) that were integrated into the core product's stock functionality.

Vanguard Technology Corporation, Lead Client Service Technician | Chicago, IL | August 2011 - Nov 2012

Vanguard Technology Company served as an creative agency for organizations within the professional association sector. Here, I honed my skills in front end development and UX design with an emphasis on responsive behaviors. We focused on site redesigns and content migration and information architecture.

Accomplishments

- Sitefinity Development: Managed PSD-to-Web implementations and developed a modular .NET widget toolbox to accelerate client launches.
- Innovation: Pioneered the company's first mobile-responsive design offerings through rigorous business analytics and discovery.
